Mobile Computing
The Grand Finale 2026

Ground Rules

1. Your pitch quality, the tournament scores, and also the final ranking will not have an impact on the final marks in this course !
2. Your marks are safe from whatever heroic moments will happen during the tournament !
3. There will be no second judging. Please do not appeal the results!
4. Take this tournament with a bit of humor 

Scoring (errata … outdated, see notebook)

Criterion	Weight / Deduction	Description
Duration	50%	Total runtime of the model call (shorter = better)
Correctness	50%	Closeness of the numeric answer to the true result. Invalid JSON results in a score of 0
Reasoning	−25%	Deduction if reasoning field missing or < 50 words
Missing Parameters	−10% each	Deduction for every required flag omitted from the command

Results

Duration	Score	ranking
1	United Models	30
2	Pi-Pirates	25.6
3	Tuners	15.21
4	San Pellegrino	15
5	BananaPie	0
6	ByteBusters	0
7	The overfit and furious	0
